**LAUNCH OF THE YULi MOBILE APPLICATION  
FOR MONTRÉAL–TRUDEAU USERS**

**Montréal, March 15, 2016** — Aéroports de Montréal (ADM) announced today the official launch of its YULi mobile application, designed to serve as a personal assistant for Montréal–Trudeau airport users.

Whether you are flying out of Montréal or coming to the airport to pick someone up, YULi is the official application you need.

It's the best way to enjoy your time with us: find your way easily around the terminal, keep informed about your flight and receive exclusive offers from our retailers and partners.

Specifically, YULi features the following functions:

- Interactive map showing your way around the airport, as well as the location of all the services and businesses.
- Personalized route, including walking time and wait time at the security checkpoint.
- Real-time updating of all your flight information.
- Online reservation of your parking space near the terminal.
- Exclusive promotional offers at airport shops and restaurants.

Although YULi is now available only for the iPhone, it will soon be available for devices running the Android operating system. To download the YULi mobile app, please visit the App Store.

**About Aéroports de Montréal**

Aéroports de Montréal is the local airport authority that has been responsible for the management, operation and development of Montréal–Trudeau and Montréal–Mirabel international airports since 1992. The Corporation employs 625 people at both airports and at head office. ADM has been ISO 14001 certified since 2000 and BOMA BEST certified since 2008.
