

**PRESS RELEASE**

**For immediate release**

**AÉROPORTS DE MONTRÉAL AND UBER  
REACH A BUSINESS AGREEMENT**

**Montréal, December 12, 2016** – Uber drivers will be able to pick up passengers at Montréal–Trudeau airport as of December 12, following the conclusion of a business agreement between Aéroports de Montréal (ADM) and the online transportation company.

ADM had earlier demanded that Uber not activate its application at the Montréal–Trudeau terminal as long as the service had not been regulated by the Government of Québec. Under the agreement between the Québec Minister of Transport, Sustainable Mobility and Transportation Electrification and Uber Canada Inc., the company will be able to offer its services at the airport until October 2017.

“In this way, ADM wants to provide a variety of transportation services to meet growing demand from travellers, particularly for the use of new technologies,” said Charles A Gratton, Vice-President, Real Estate and Commercial Services, ADM. “Uber is present at more than 50 airports in North America and has agreements with some airlines.”

Uber drivers must use a waiting area located outside the airport perimeter. Passengers will embark at Door 6 on the departures level.

**Taxi permit holders**

Direct embarking of passengers at the professional pickup area on the arrivals level will remain exclusive to taxis holding airport permits.

On November 14, taxi drivers who hold an airport permit received an extension of their permit so that it will be valid until April 30, 2017.

**About Aéroports de Montréal**

Aéroports de Montréal is the local airport authority that has been responsible for the management, operation and development of Montréal–Trudeau and Montréal–Mirabel international airports since 1992. The Corporation employs 625 people at both airports and at head office. ADM has been ISO 14001 certified since 2000 and BOMA BESt certified since 2008.
