

NOISE BARRIER

FEBRUARY 2018

In March, ADM will start preparatory work for the construction of the plant noise barrier.

A detailed evaluation was done by an ISA certified arborist. Following this inventory, some trees that are diseased or dead will need to be cut while others need pruning. A detailed plan of the site is available on our website at

<http://www.admtl.com/en/adm/communitie/s/noise-barrier>.

Construction work of the barrier will begin May 1st and will continue until September 15th. The work schedule will be from 7:30 a.m. to 5 p.m., Monday to Friday.

Once construction is completed, we will start the landscaping and tree planting in accordance with the preferences you expressed to us.

We will distribute more newsletters throughout the work. You can also visit our website at

<http://www.admtl.com/en/adm/communitie/s/noise-barrier> or contact us at info@admtl.com for more information.
